DI TORINO

SmartData@PoliTO

Thursday, February 28th 2019

h. 14.30 / 19.00

Politecnico di Torino
Sala Consiglio di Facoltà
Corso Duca degli Abruzzi, 24
10129 Torino (TO)

4th SmartData@PoliTO workshop WIDENING OUR HORIZONS

Big Data technologies & Data Science applications

Goals

The 4th SmartData@PoliTO workshop is an **open event** where people from companies and research centres present their activities related to **Big Data**, **Machine Learning** and **Data Science** to stimulate the discussion on these topics.

Topics

Deep Learning, Big Data, Data Science, Startups, Fairness, Programming Languages, IoT, Energy, Mobility,...

Speakers

Marco Aldinucci (Unito) - *The evolution of high-performance systems: from HPC to Big Data to Deep Learning*

Enrico Busto (Addfor) - *Why join the navy if you can be a Pirate?*

Antonio Vetrò (NEXA) - *Fairness in automated decisions: motivations and preliminary researches*

Carlo Baldassi (Uboconni) - *Julia: a programming language for data science*

Riccardo Loti (Tierra Telematics) - *Operating and evolving a distributed IoT platform*

Tania Cerquitelli (Polito) - *Visualizing high-resolution exploratory energy maps by analyzing open certificates*

Marco Fiore (CNR) - *Urban Vibes and Rural Charms: Analysis of Geographic Diversity in Mobile Services at National Scale*

Registration

Registration is free but **strictly required**.
