The cultural heritage of humankind has been subject to increasing assault, both deliberate and unintended, in war and conflict zones.

In this Advanced Research Workshop, we explore how to ensure the safety and security of cultural heritage during military operations and in response to terrorist attacks.

We seek policy and operational solutions through a holistic approach drawing on the expertise and experience of a diverse group of scholars, analysts and practitioner.

CULTURAL HERITAGE'S SAFETY AND SECURITY IN ZONE OF WAR OR INSTABILITY

2020, November 25th - 27th
