

GEOdive Project:

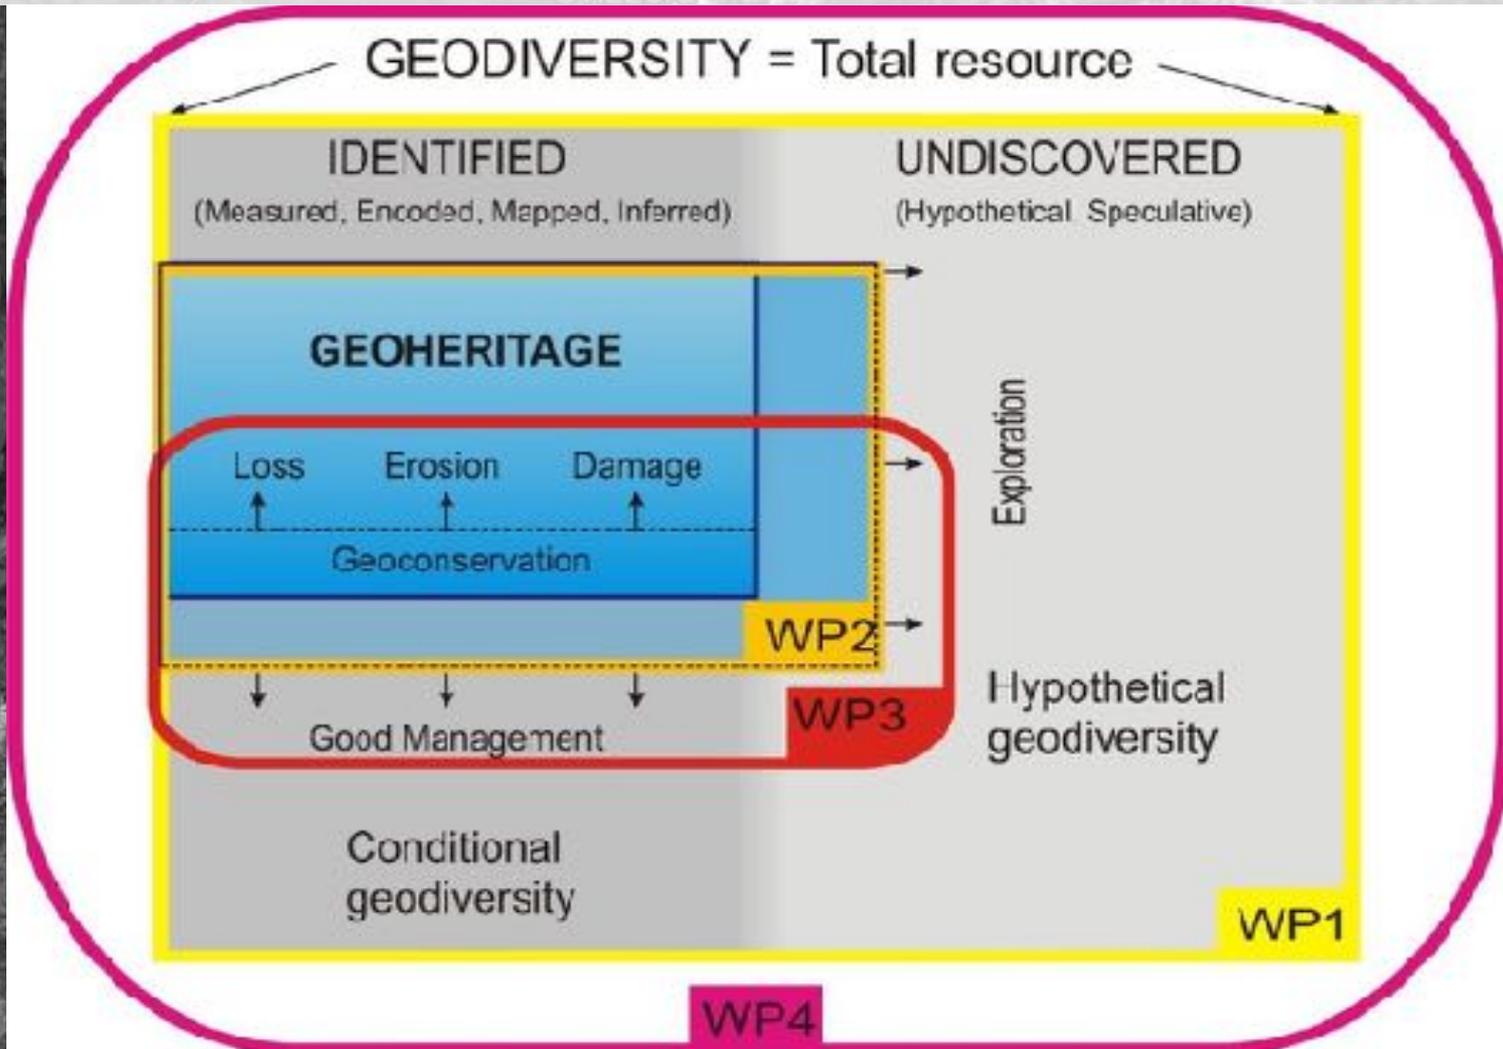

Recognition, Mapping, Assessment and Enhancement of Geodiversity

“From Rocks To Stones, From Landforms To Landscapes”

Marco Giardino
and the GEOdive team

University of Torino, Italy
Earth Sciences Department – GeoSITLab Laboratory

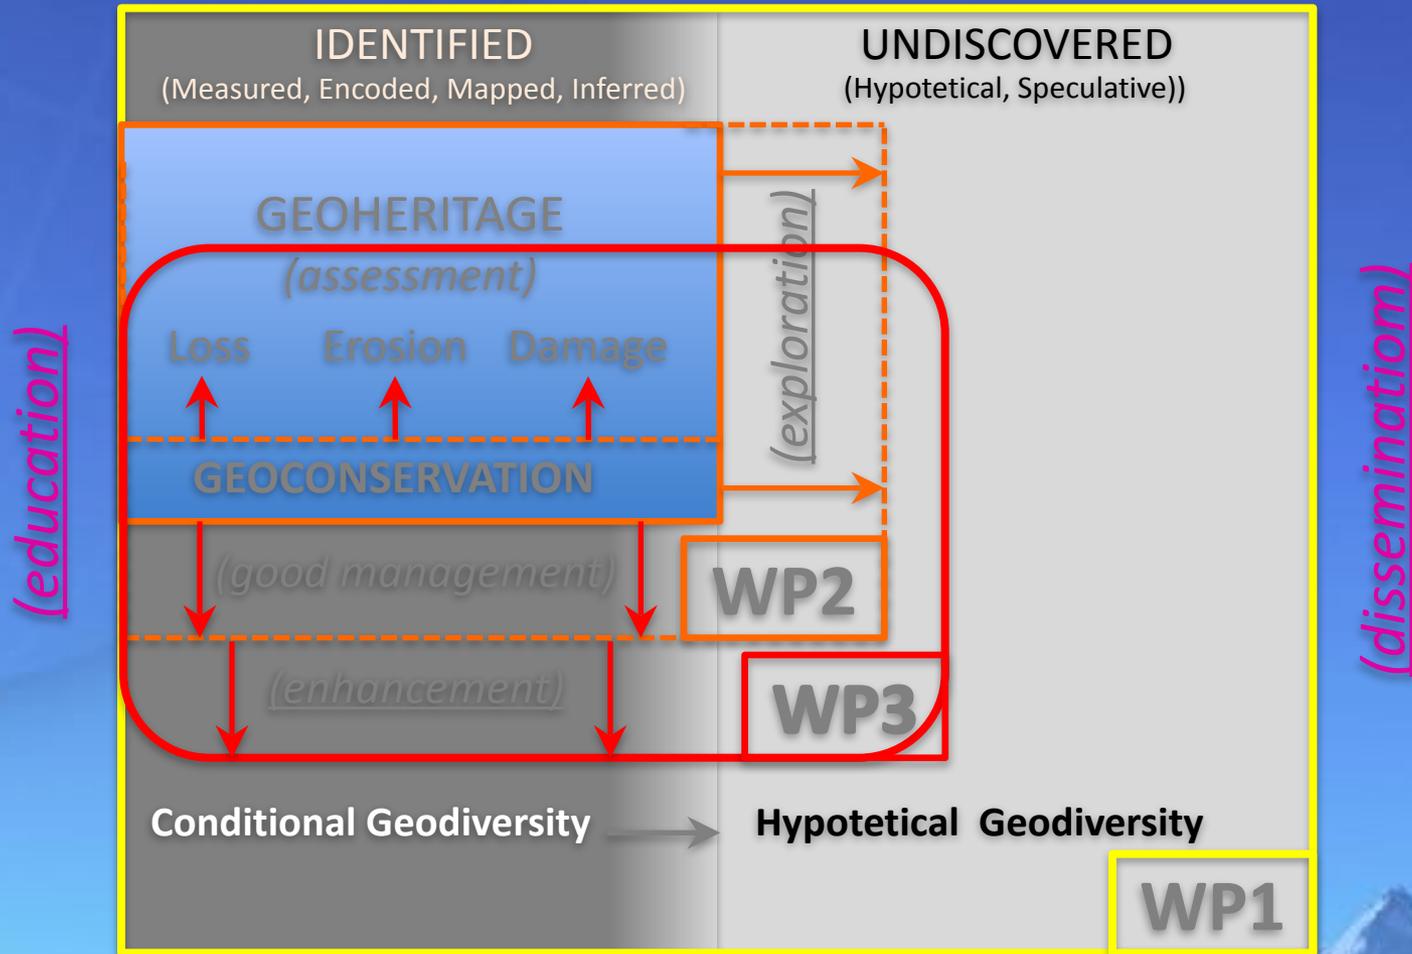

3. Concept and methods of the “GEOdive” project

4. steps of its application, with results

WP4. The role of OUTREACH ACTIVITIES

(technical formation)

WP4

Spreading Knowledge on Cultural Geoheritage

Relationships with Unesco Global Geoparks

Technical skills for Park rangers

By giving training on acknowledgement and conservation of cultural landscape to environmental managers and teachers, **we started an adaptive learning process** on geodiversity values, rather than imposing a fixed set of rules on geoheritage management

Cultural promotion

Educational activities

International exchanges

Dissemination events

OPPORTUNITIES: multiple UNESCO designations

GEODIVERSITY

GEOHERITAGE

Mountains

Biosphere

Monviso

Geopark

*Sesia -
Val Grande*

Enhancement

OPPORTUNITIES: UNESCO WHS, MAB, Geopark, Creative Cities

GEODIVERSITY

GEOHERITAGE

Dissemination

Culture

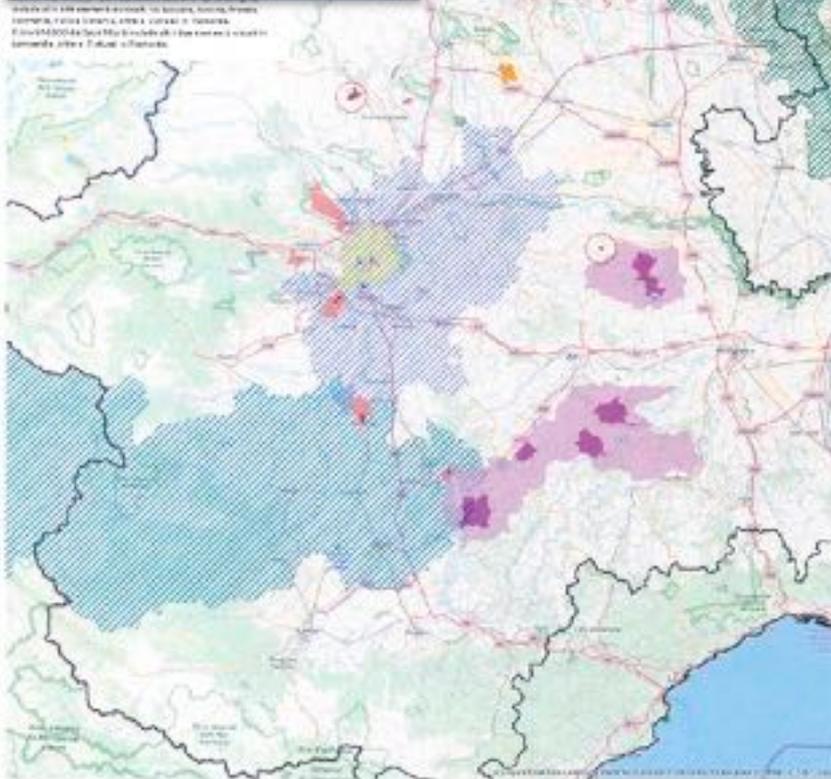

CollinaPO

Nature

OPPORTUNITY for Piemonte as UNESCO district

35 % of the area has UNESCO designations

UNESCO in Piemonte

Lista del Patrimonio Mondiale WHL

Residenze Sabaude (1997)
Sacri Monti del Piemonte e della Lombardia (2003)
Siti palafitticoli preistorici dell'arco alpino (2011)
Paesaggi vitivinicoli del Piemonte: Langhe-Roero e Monferrato (2014)

Riserva della Biosfera (MAB-Man and Biosphere)

MAB Valle del Ticino (2002)
MAB Monviso (2013)
MAB Collina Po (2016)

Geoparchi mondiali UNESCO

Geoparco Sesia Val Grande (2013)

UNESCO Creative Cities

Torino Creative City per il Design (2014)

Needs proper **PLANNING**
and **MANAGEMENT**

Thanks for your attention!
