Targeted Therapy of Cancer: where we are heading

June 27th 2014

Molecular Biotechnology Center
Via Nizza 52, Torino
Aula Keplero

The registration is free but mandatory until 25 June.

Please anyone interested to register at link: <http://immunolab12.webnode.it/eventi/>

The organizers invite PhD student of Doctoral School in Life and Health Sciences to submit abstracts to be considered and included in the programme by June 16th. Notification of acceptance for presentation (10 min + 5 discussion) will be sent by the organizing secretariat until 20 June by e-mail. Abstracts must focus on cancer. Certificate of attendance is given to all registered participant at the end of the workshop by e-mail.

PROGRAMME

9:00 -13:00

Opening Lecture: Precision oncology: perspectives and prospects
Silvia Giordano (IRCCS - Candiolo – Italy)

A self-antigen re-opens game in pancreatic cancer
Paola Cappello (CeRMS – Torino - Italy)

Cancer Stem Cell Oncoantigens Identification: two examples from breast cancer
Stefania Lanzardo and Laura Conti (MBC – Torino - Italy)

In vivo preclinical Imaging Guided Therapy
Simonetta Geninatti (MBC – Torino - Italy)

MACSQuant Tyto: una storia di innovazione tecnologica
Enrico Gherzi (Miltenyi Biotec - Bologna – Italy)

Mini-lunch offered by Miltenyi

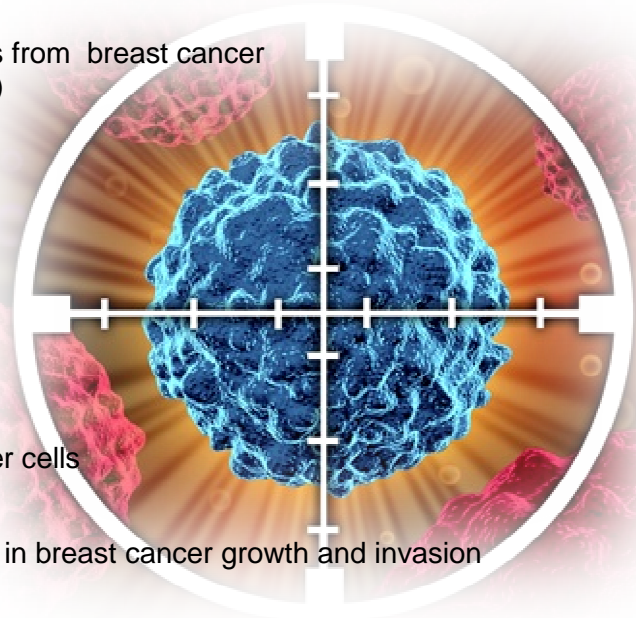

14.00- 17.00

Multifaceted features of multidrug resistance (MDR) in cancer cells
Chiara Riganti (Department of Oncology –Torino - Italy)

3- phosphoinositide-dependent protein kinase 1 (PDK1) role in breast cancer growth and invasion
Paolo Gagliardi (IRCCS - Candiolo – Italy)

Unraveling the wicked games of cancer genomes
Roberto Piva (CeRMS – Torino - Italy)

Closing Lecture: Fighting cancer with Physics: From Oncosimulator to Nanotherapies
Caterina Guiot (Department of Neuroscience – Torino - Italy)

SCIENTIFIC COMMITTEE:

Mirella Giovarelli (CeRMS – Torino –Italy)
Marco Macagno (MBC –Torino – Italy)

COORDINATOR:

Marco Macagno (MBC – Torino - Italy)
