Landscape Design for Biodiversity

Conveners:

Bianca Maria Rinaldi
Politecnico di Torino

Federica Larcher
University of Turin

Scientific and organizing committee:

Alessandro Gabbianelli
Politecnico di Torino

Federica Larcher
University of Turin

Bianca Maria Rinaldi
Politecnico di Torino

Manuela Ronci
Politecnico di Torino

Emma Salizzoni
Politecnico di Torino

The one-day symposium is convened in conclusion of the research project “Biodiversità urbana e progetto di paesaggio” supported with a grant by the Interuniversity Department of Regional and Urban Studies and Planning (DIST), Politecnico di Torino. While the research project focused on the role of landscape architecture projects in the conservation/implementation of urban biodiversity in Italy, the symposium is designed as a platform to foster an international debate on the topic of urban biodiversity. Bringing together a variety of scholars and designers – geographers, landscape architects, urban ecologists – the symposium aims at highlighting the key role of the landscape architecture project and the importance of a multidisciplinary approach in responding to issues related to the conservation of biodiversity in the urban context.

9:30 am **Welcome address**

Bianca Maria Rinaldi, Politecnico di Torino
Carlo Grignani, Head of the Department of Agricultural Forest and Food Sciences, University of Turin

9:45 am **Opening remarks**

Bianca Maria Rinaldi, Politecnico di Torino
Federica Larcher, University of Turin

10:00 am **Natura Urbana**

Matthew Gandy, University of Cambridge

11:00 am **Coffee**

11:20 am **Panel I: THEORY**

Going wild? Are contemporary design approaches really including new types of nature?

Lilli Lička, University of Natural Resources and Life Sciences, Vienna

Biodiversity and the landscape architectural project in Sheffield, UK

Anna Jorgensen, University of Sheffield

12:45 pm **Lunch**

2:30 pm **Panel II: ECOLOGY**

The importance of plant diversity in landscape architecture design

Norbert Kühn, TU Berlin

Biodiversity conservation in urban regions of the Anthropocene

Emilio Padoa Schioppa, University of Milano-Bicocca

4:00 pm **Panel III: DESIGN**

Bugs in the city

François Vadepiéd and Camille Bourgeois, Wagon Landscaping, Paris

Living together

Maike van Stiphout, DS landschapsarchitecten, Amsterdam

5:20 pm **Closing Discussion**

La partecipazione al convegno riconosce nr. 0,75 CFP SDAF 15 per la categoria dei Dott. Agronomi e Dott. Forestali/Rif Regolamento CONAF 3/2013

È in corso l'accreditamento presso l'Ordine degli Architetti, Pianificatori, Paesaggisti e Conservatori della Provincia di Torino

La partecipazione al convegno riconosce nr. 1 CFU agli studenti del Corso di laurea magistrale interateneo in Progettazione delle aree verdi e del paesaggio LM3
